

DATE: March 10, 2006

TO: City Council
Planning Commissioners

SUBJECT: Project Update: December 19, 2005 through January 13, 2006

The following is staff's update on Land Use Element and Circulation Element progress through March 10, 2006

PUBLIC OUTREACH

- City staff continues to develop a public outreach tool for the next workshop focusing on city-wide goals that pertain to the Land Use and Circulation elements of the General Plan. Preliminary outlines suggest this effort will likely include an interactive workshop, as well as a passive display, and an internet component.

PROJECT COORDINATION

- Project team meetings were held weekly throughout the month.

WORKS IN PROGRESS

- Staff is preparing an Information Item that will outline a strategy to implement Council's direction on an outreach component focusing on the city-wide goals that pertain to the Land Use and Circulation elements. A draft outline of the internet component will also be presented during the April policy meeting.
