Number of Participants:	5 Commissioners
STF2025 Staff:	Amanda Schachter, Planning Manager
Representation:	Jonathan Lait, AICP, Acting Principal Planner
City Council and/or Planning Commission:	None.
Members Present:	

General Comments:

Shape the Future 2025 staff provided a brief presentation on the status of the General Plan process and highlighted community outreach efforts completed to date. The Commission discussed the following issues for inclusion in the project:

The Commission noted that the existing Airport property is not zoned and that 10-15 years from now, the lease will expire, unless renewed. To address issues regarding the airport and adjacent uses, the idea of a Master or Specific Plan was considered. The Commission discussed airport traffic trends and believed it important that the community be prepared for all possible outcomes regarding the airport's future. Also, efforts to improve compatibility between the airport and adjacent residential land uses should be evaluated and measures taken within the airport boundaries to address these concerns. The Airport property was thought by some to be an underutilized resource and that the City should look at ways to further benefit the community.

NOTE:

The Airport Commission acts in an advisory capacity to the City Council in all matters pertaining to the Municipal Airport and to aviation matters generally to the extent that they affect the City. For more information on the Airport Commission, please visit the following link:
