General Comments:

Commissioner Pugh introduced the project and urged participation from parents. Staff presented & discussed project; Motion by the Ocean staff helped participants complete the transportation survey. The Fishbowl Survey indicated bicycling and walking as a priority. Some participants completed STF2025 visioning sheets, indicating interest in issues such as: parking near schools; maintaining a mix of single- and multi-family residential options; providing transportation options to decrease reliance on automobiles, such as shuttles from central parts of the city to the beach/Promenade; more parks and playing fields for kids; cleaner air; safe neighborhoods; good schools and after-school care options; small town character, but with a vibrant cultural/entertainment center.

Follow – Up Issues:

One participant requested that staff attend a meeting of the school's bilingual committee. Staff will coordinate a date.
