General Comments:

Commissioner Johnson and City staff presented background information on the Shape the Future 2025 project and explained project details, including the timeline and public outreach efforts.

The Board of Trustees stressed the importance of the project and indicated that the input of other groups and organizations should be involved.

Staff communicated to the Board that the upcoming Planning Commission and City Council meetings would be good times to provide input as well as throughout the entire project process. If a liaison from the Board attends these meetings, they would serve as a method of ongoing communication between the Board and the City. The Board asked to be kept updated on project milestones.

The Board suggested incorporating the Community College 5-year plan, which is updated yearly, into the feedback provided to the City.

Note:

The Santa Monica Community College District is governed by a seven-member Board of Trustees elected to four year terms by voters in the district which serves Santa Monica and Malibu. A student trustee who serves for a one-year term is elected by the Santa Monica College students.
